

Wind-down plan

For Jordan Reyes, from Maya Okafor, LPC. Session 3, Sleep and evening routines.

Start winding down 30 minutes before bed:

1. Check tomorrow's shifts once, then close the shift app for the night.
2. Leave your phone outside the bedroom on work nights.
3. Dim the lights and do something calm: read, stretch, or listen to music.
4. Once you're in bed, try box breathing: in for 4, hold for 4, out for 4, hold for 4.

If you're still awake after about 20 minutes, get up, keep the lights low, and go back to bed when you feel sleepy.

Each morning, note how long it took to fall asleep. We'll look at it together.
